

Las Vegas FAASTeam presents:

# **Density Altitude in the Vegas Valley - Better Decision Making through Personal Minimums**

**DENSITY ALTITUDE (DA)** As the weather warms up in the Las Vegas area, DA will play a larger role in our preflight planning and aircraft performance. Stephen Ruks, local FAASafety Team Representative of the Year (2016), CFI (since 1975), Navy (Vietnam era), FAA Tech Ops (31 years), Commercial Pilot and Alaska bush pilot, will discuss the aerodynamic factors affecting our flying this summer and cover local and non-local case studies.

**PERSONAL MINIMUMS**, Cathy Stockdale, CFI, FAASafety Team Representative, and human factors/psychology enthusiast, will discuss the effectiveness of Aeronautical Decision Making (ADM) and how Personal Minimums can improve it for all pilots. Developing personal minimums above and beyond FAA regulations means knowing your limits better and increasing your ADM skills.

**Directions:** South conference room on the ground floor

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

**Event Details**

**Thu, Mar 10, 2016 - 19:00 PST**  
**Henderson Executive Airport**  
**Terminal**

3500 Terminal Dr  
Henderson, NV 89052

**Contact: Cathy Stockdale**  
**(580) 761-8090**
